The Project report is prepared according to the approved guidelines as given by the Controller of Examinations and duly signed by the Supervisor(s) and the Head of the Department concerned and shall be submitted to the Head of the Institution
- 10.5.4 If the student fails to obtain 50% of the total CA marks in the Project work she will not be permitted to submit the report for that particular semester has to re- register for the same and in the subsequent semester.
- 10.5.5 If a student fails to submit the project report on or before the specified deadline, she is deemed to have failed in the project work and shall re-register for the same in a subsequent semester.
- 10.5.6 If a student fails in the ESE of Project work Phase – I of M.E. / M.Tech. she has to resubmit the project report within 30 days from the date of declaration of the results. If she fails in the ESE of Phase–II of project work of M.E. / M.Tech. the final Project work of M.B.A. she shall resubmit the project report within 60 days from the date of declaration of the results. The resubmission of a project report and subsequent Viva- Voce examination will be considered as reappearance with payment of exam fee. For this purpose the same Internal and External Examiners shall evaluate the resubmitted report.
- 10.5.7 If a student fails to appear for the Viva-Voce examination after submitting the report on Project work on the date, she will be marked as absent for the Project work and has to re-register for the same in the subsequent semester. A copy of the evaluated project report after the successful completion of Viva-Voce examinations shall be kept in the common library.

Note: CA marks shall be displayed by the respective Head of the Department within 5 days from the last working day.

10.6 Seminar / Professional Practices / Case Study

The seminar / Case study shall carry 100 marks and shall be evaluated through continuous assessment only. Every student is expected to present a minimum of 2 seminars per semester before the evaluation committee and for each seminar, marks can be equally apportioned. The three member committee appointed by Head of the Department will evaluate the seminar and at the end of the semester the marks can be consolidated and taken as the final mark. The evaluation shall be based on the seminar paper / report (40%), presentation (40%) and response to the questions asked during presentation (20%).

- 10.7 In case a student misses the assessment due to medical reasons (hospitalization / accident / specific illness) or due to participation in the College / University / State / National / International level Sports events with prior permission from the Head of the Institution a Reassessment may be given at the end of the semester after getting approval from the Head of the Department through the concerned Class Advisor.

If a student remains absent for all the Internal Assessment tests conducted, the Internal Assessment Marks is considered as AB and shall be marked as zero for the course against the Registration Number of the student in the internal marks sheet submitted to the Controller of Examinations by the Head of the Department.

10.8 Attendance and Assessment Record

Every teacher is required to maintain an 'ATTENDANCE AND ASSESSMENT RECORD' which consists of attendance marked in each lecture or practical or project work class, the record of class work (topics covered) and the test marks separately for each course. This should be submitted to the Head of the Department periodically (at least three times in a semester) for checking the syllabus coverage and the records of test marks and attendance. Head of the Department will sign after due verification. At the end of the semester, the record shall be verified by the Head of the Institution who will keep this document under safe custody (for three years). The University or any inspection team appointed by the Institution may inspect the records of attendance and assessment of both current and previous semesters.

11. Award of Letter Grades and Grade Points, Performance Analysis Committee and Passing Requirements

11.1 Award of Letter Grade and Grade Point

Each student, based on her performance, will be awarded a final letter grade and grade point as given in the table infra for each course at the end of each semester by the following:

- i. Relative Grading System for theory courses having CA and ESE.
- ii. Absolute Grading System for all other courses including Laboratory courses, Project Work / Mini-project / Internship / Seminar / Report writing and Courses carrying only CA marks.

- iii. If the class strength is less than or equal to 10 in a theory course, then, absolute grading shall be adopted instead of the class-wise relative grading system

11.2 Relative Grading System

In relative grading system, the grades are awarded to the students based on their performance relative to the other in the class as detailed below:

- 11.2.1 For each course, the total mark, M (where M is equal to CA marks secured + ESE marks secured) is computed for each student. For each course the statistical parameters mean (μ), and standard deviation (σ) of the distribution of marks is arrived as given below:

$$\mu = \sum_{j=1}^n \frac{M_j}{n} \quad \text{and} \quad \sigma = \sqrt{\frac{\sum_{j=1}^n (M_j - \mu)^2}{n}}$$

Where

M_j = Total marks of each student in a particular course and

n = No. of students who have appeared for the examination in that particular course.

- 11.2.2 The above statistical parameters are revised by eliminating outliers M_j in the range [$M_j > (\mu + 2\sigma)$, $M_j < (\mu - 2\sigma)$] and the revised statistical parameters; mean (μ) and standard deviation (σ) are computed using the above relationships, considering the updated number of students.
- 11.2.3 The letter grade and the grade point for the courses are generally awarded based on the statistical parameters, mean (μ) and standard deviation (σ) of the distribution of marks as detailed below:

| Total Mark M secured by the student (M = CA+ESE) | Grade | Relative Grade point GP |
|--|----------------|-------------------------|
| $M \geq \mu + 1.65\sigma$ | O | 10 |
| $\mu + 0.85\sigma \leq M < \mu + 1.65\sigma$ | A ⁺ | 9 |
| $\mu \leq M < \mu + 0.85\sigma$ | A | 8 |
| $\mu - 1.2\sigma \leq M < \mu$ | B ⁺ | 7 |
| $\mu - 1.8\sigma \leq M < \mu - 1.2\sigma$ | B | 6 |
| $M < \mu - 1.8\sigma$ (Or) ESE less than 40% of maximum of final examination marks for theory course (or) M < 50% in total marks for theory course | RA | 0 |
| Shortage of Attendance | SA | 0 |
| Withdrawal from Examination | W | 0 |

Note:

- If $(\mu - 1.8\sigma)$ is > 50 , the lower limit of the grade B is to be fixed as 50.
- “RA” denotes Re-Appearance in a course

11.3 Absolute Grading System

In absolute grading system, the letter grade and grade points are awarded to each student based on the percentage of marks secured by her in Laboratory courses, Project Work / Mini- project / Internship Training / Seminar / Report writing and courses carrying only CA marks, as detailed below:

| Range of percentage of total marks | Letter Grade | Grade Points |
|------------------------------------|---------------------------|--------------|
| 91- 100 | O (Outstanding) | 10 |
| 81- 90 | A + (Excellent) | 9 |
| 71 - 80 | A (Very Good) | 8 |
| 61 - 70 | B + (Good) | 7 |
| 50 - 60 | B (Above average) | 6 |
| RA | Reappearance Registration | 0 |
| SA | Shortage of Attendance | 0 |

The range of marks for each grade is decided statistically

“RA” denotes Reappearance registration is required for that particular course.

“SA” denotes shortage of attendance (as per Clause 6.1 & 6.2) and hence prevented from writing end semester examination.

11.4 Performance Analysis Committee

The Performance Analysis Committee chaired by the Head of the Institution and consisting of the Controller of Examinations and all the Heads of the Departments will, by collective wisdom, decide the scaling factors for different grades and minimum pass mark for ESE alone if found necessary, so as to ensure that the clustering and differentiation of students are made in a reasonable manner for each course separately.

11.5 Passing Requirements

- 11.5.1 The Passing requirement for a student in a course is determined statistically based on the analysis of the marks obtained both in Continuous Assessment and End Semester Examinations. A student who earns a minimum of 6 grade points in a course is declared to have successfully passed the course.
- 11.5.2 If a student fails to secure a pass in a theory course (except electives), the student shall do reappearance registration for that course in the subsequent semester, when offered next, earn continuous assessment marks and attend the end semester examination.
- 11.5.3 If the course, in which the student has failed, is an elective, the student may be permitted to

register for the same or any other elective course in the subsequent semesters, attend the classes and fulfill the attendance requirements as per Clause 6.1 and 6.2.

- 11.5.4 If a student fails to secure a pass in a laboratory course, the student shall register for the course again, when offered next.
- 11.5.5 If a student fails to secure a pass in project work, the student shall register for the course again, when offered next.
- 11.5.6 The passing requirement for the courses which are assessed only through continuous assessment (EEC courses except project work), shall be determined statistically based on the marks obtained in continuous assessment tests.

11.6 Cumulative Grade Point Average

- 11.6.1 After the results are declared, Grade Sheets will be issued to each student which will contain the following details:
- i. The Institution in which the Student has studied.
 - ii. The list of courses enrolled during the semester and the grades scored.
 - iii. The Grade Point Average (GPA) for the semester.
 - iv. The Cumulative Grade Point Average (CGPA) of all courses enrolled from first semester onwards.
- 11.6.2 GPA for a semester is the ratio of the sum of products of the number of credits acquired for courses and their corresponding grade points to the sum of the number of credits acquired for all the courses in the semester and is calculated using the formula.

$$\text{GPA} = \frac{\text{Sum of [Credits acquired x Grade points in the given semester]}}{\text{Sum of Credits acquired in the given semester}}$$

- 11.6.3 CGPA will be calculated considering all the courses registered from the first Semester “RA” and “SA” grades will be excluded for calculating GPA and CGPA and is calculated using the formula.

$$\text{CGPA} = \frac{\sum_{i=1}^n C_i GP_i}{\sum_{i=1}^n C_i}$$

where

C_i – the credits assigned to the course.

GP_i – the point corresponding to the grade obtained for the given course.

n – number of all courses successfully cleared during the particular semester in the case of GPA and during all the semesters in the case of CGPA.

- 11.6.4 CGPA will be calculated in a similar manner, considering all the courses enrolled from first semester. “RA” and “SA” grades will be excluded for calculating GPA and CGPA.
- 11.6.5 If a student studies more number of electives (PE/OE) than required as per the student’s programme curriculum, the courses with higher grades alone will be considered for calculation of CGPA.

12. Revaluation

- i. A Student can apply for a photocopy of her answer book to the Controller of Examinations through the Head of the Institution within one week from the date of declaration of results, on payment of a prescribed fee. She can apply for revaluation of the same within one week from the date of receiving of the photocopy and on payment of a prescribed fee.
- ii. A Student can apply for revaluation of answer scripts only after obtaining their photocopies and for courses not exceeding 5 at a time. The Controller of Examinations will arrange for the revaluation and the results will be published. Revaluation is not permitted for Practical courses, Seminars, Report writing, Internship training and Project work / Mini-project.
