Anti - Drug Awareness Program

Drug Awareness on "Say No to Drugs" -23.10.2024

Awareness Programme

Circular

VCEW/ 2024-2025/ Anti- Drug/ 005

Date: 22.10.2024

CIRCULAR

We are pleased to announce that Anti-Drug Club of VCEW is organizing a Drug Awareness Program titled "Say No to Drugs" on 23.10.2024 by 11.00 am at VCEW Seminar Hall, aimed at raising awareness about the harmful effects of drug abuse and promoting a healthy, drug-free lifestyle among our students and the community.

Objectives of the Program:

- To educate students about the physical, mental, and social consequences of drug use.
- To promote awareness of the legal and health risks associated with substance abuse.
- To encourage students to make informed decisions and resist peer pressure.
- To provide guidance on healthy alternatives to drug use and how to build a supportive community.

All students are encouraged to attend this important event and make a commitment to say no to drugs. Together, let's create a safer and healthier campus environment.

Report

On 23th October, 2024, the Anti-Drug Club at Vivekanandha College of Engineering for Women (VCEW) organized an awareness program titled “Say No to Drugs.” The event aimed to educate and empower students about the dangers of drug use, promote a drug-free lifestyle, and encourage them to become advocates against substance abuse.

The program began with an insightful keynote address by Dr. Rajkumar, Principal, Allied Health Science. He emphasized the physical, mental, and social consequences of drug addiction and shared real-life stories to underscore the gravity of the issue. The speech was followed by an interactive session where students raised queries about drug-related concerns, gaining valuable insights into coping mechanisms, prevention strategies, and how to support those struggling with addiction.

With 540 students participating, the event witnessed enthusiastic involvement from all departments. Participants pledged to live a drug-free life and spread awareness about the harmful consequences of drug use in their communities. The Anti-Drug Club members also shared information on counselling services available at the college for students in need of support.

The “Say No to Drugs” event concluded on a positive note, with students and faculty reaffirming their commitment to creating a healthy, drug-free campus environment.
