VIVEKANANDHA COLLEGE OF ENGINEERING FOR WOMEN
[AUTONOMOUS INSTITUTION AFFILIATED TO ANNA UNIVERSITY, CHENNAI]
Elayampalayam – 637 205, Tiruchengode, Namakkal Dt., Tamil Nadu.

Question Paper Code: 6013

B.E. / B.Tech. DEGREE END-SEMESTER EXAMINATIONS – MAY / JUNE 2024

Sixth Semester

Information Technology

U19ITV23 – CYBER FORENSICS

(Common to CSE)

(Regulation 2019)

Time: Three Hours

Maximum: 100 Marks

Answer ALL the questions

| Knowledge Levels (KL) | K1 – Remembering | K3 – Applying | K5 - Evaluating |
|--------------------------|--------------------|----------------|-----------------|
| | K2 – Understanding | K4 – Analyzing | K6 - Creating |

PART – A

(10 x 2 = 20 Marks)

| Q.No. | Questions | Marks | KL | CO |
|-------|---|-------|----|-----|
| 1. | List the steps involved in assessing the digital evidence in a computer investigation. | 2 | K3 | CO1 |
| 2. | Highlight one challenge associated with handling digital evidence. | 2 | K2 | CO1 |
| 3. | What are the steps involved in setting up and utilizing write-protection for USB devices in a Windows XP system? | 2 | K2 | CO2 |
| 4. | Mention the scenario where knowledge of storage formats influenced the outcome of a digital forensic investigation. | 2 | K3 | CO2 |
| 5. | Provide an example of digital evidence commonly encountered in cybercrime cases. | 2 | K1 | CO3 |
| 6. | What are the steps to create image files of digital evidence? | 2 | K2 | CO3 |
| 7. | Mention the roles of computer forensics software tools in digital investigations. | 2 | K1 | CO4 |
| 8. | List the importance of validating and testing forensic software tools. | 2 | K3 | CO4 |
| 9. | Mention the methods used in identifying unknown file formats during digital forensic analysis. | 2 | K4 | CO5 |

10. Differentiate between copyright infringement and fair use. 2 K2 CO5

PART – B

(5 x 13 = 65 Marks)

| Q.No. | Questions | Marks | KL | CO |
|--------|--|-------|----|-----|
| 11. a) | Discuss the challenges associated with presenting digital evidence in legal proceedings. How can investigators prepare to address these challenges and ensure the admissibility of the evidence in court? | 13 | K2 | CO1 |
| | (OR) | | | |
| b) | Provide an example of a complex computer investigation and discuss the strategies employed to overcome challenges and achieve a successful outcome. | 13 | K3 | CO1 |
| 12. a) | Discuss the factors that investigators should consider when determining the best acquisition method for digital evidence. Provide two examples of situations where different acquisition methods might be appropriate. | 13 | K3 | CO2 |
| | (OR) | | | |
| b) | Discuss the benefits and risks of using remote network acquisition tools in digital forensics. How can investigators ensure the security and integrity of the acquired data in a remote acquisition scenario? | 13 | K3 | CO2 |
| 13. a) | Explain the differences between collecting digital evidence in private sector incident scenes and law enforcement crime scenes. Provide two considerations unique to private sector incidents. | 13 | K4 | CO3 |
| | (OR) | | | |
| b) | Discuss the challenges associated with seizing digital evidence at the scene. How can investigators ensure the proper collection and preservation of digital evidence during the seizure process? | 13 | K3 | CO3 |
| 14. a) | Discuss about | | | |
| | i. Hardware and software forensics tools. | 8 | K2 | CO4 |
| | ii. Validating forensic software. | 5 | | |
| | (OR) | | | |
| b) | Describe the process of determining data collection and analysis in computer forensics. How does this decision-making phase impact the overall success of a forensic investigation? | 13 | K3 | CO4 |

- | | | | | | |
|----|----|--|----|----|-----|
| 15 | a) | Discuss key security considerations for email servers in the context of forensic investigations. How can a compromised email server affect the integrity of digital evidence? | 13 | K3 | CO5 |
| | | (OR) | | | |
| | b) | Discuss how data compression techniques can affect the recognition and recovery of graph files. Outline techniques for recovering graph files that have undergone compression. | 13 | K2 | CO5 |

PART – C

(1 x 15 = 15Marks)

- | Q.No. | Questions | Marks | KL | CO |
|-------|---|-------|----|-----|
| 16 | a) Discuss challenges that may arise during the investigation and propose solutions for overcoming them. Determine and justify the best acquisition method for corporate high-tech investigation. | 15 | K4 | CO2 |
| | (OR) | | | |
| | b) Explain the considerations and procedures involved in performing remote acquisitions. Discuss the ethical and legal implications of remote acquisitions in the context of this investigation. | 15 | K3 | CO4 |
