**COLLEGE OF ENGINEERING FOR WOMEN (AUTONOMOUS)**  
Approved by AICTE, New Delhi, Affiliated to Anna University, Chennai.  
Elayampalayam, Tiruchengode – 637205.

=====

**CO – PO Target & Attainment Process**

**Target fixing for CO attainment**

Targets are set based on historical data (previous results), course complexity, and student performance in the class.

Nature of Course	Target Range
Problematic Course	50 – 60
Moderate Course	61 – 70
Theoretical Course	71 - 80

**Process of CO attainment**

- Each CO is mapped with specific questions in internal test, assignment and end-semester examinations (ESE).
- Marks obtained through internal test, assignment and ESE are used to measure direct attainment for 80%
- Indirect attainment for 20% is taken by course end survey.

**Target fixing for PO attainment**

- The average value of CO-PO mapping of all courses for a particular batch is taken as target.

**Process of PO attainment**

- Final CO attainment of each course is multiplied with the corresponding POs in CO-PO mapping. This value is divided by sum of all corresponding POs. Then this value is converted into 3 point scale.
- Final PO attainment for program is calculated at the end of the program by considering all courses which include direct 80% and indirect 20% (Exit survey, Parent survey, Alumni survey & Employer survey).
